22nd domestically by Jungang Daily Press University Evaluation

3rd in employment rate among key national universities by 2010 National Announcement of Korean universities

External Evaluation

International Korean Education Center

CBNU plans to establish Korean Education Center with international sister universities. Globalization is CBNU s most prestigious goal and we have been trying our best to host international students. We expect the Center will be a stepping stone for substantive cooperation with world s prestigious universities. With the establishment in Asian regions, CBNU will enlarge the link with other countries.
